

← Casio WQV-1d-8CR wrist camera

A Shot in your Wrist

The Casio WQV acts like any standard digital watch with date, time, stop-clock and 24/12-hour modes. But hang on a minute! This watch is a camera too—you can click pictures and then review the results quickly and easily on the LCD. But the downside to this gizmo is that picture quality is not satisfactory. Images are 120x120 pixels in size and at 72 dpi and greyscale, they're neither sharp nor clear.

↑ Aphrodite Music System

Beauty Incarnate

TAG McLaren Audio, the audio division of the famous British Formula One racing team, has introduced a new high-end music system called the Aphrodite Music System. Fully remote controlled, Aphrodite's system is Flash-memory based and can be upgraded via the Internet. The system is not merely a breathtaking beauty, but comes with sound quality that boasts of some of the finest engineering. For once, you can get entranced in music while feasting your eyes on the goddess of beauty herself.

Nokia 9210 Communicator ↓

Light Heavyweight

Nokia 9210 Communicator is definitely a welcome step from Nokia. The product can support some frequently used PC applications such as MS Office. It even offers Java support, wirelessly of course, besides the usual features such as mobile e-mail and WAP. It features mobile multimedia that supports colour video clips and boasts of a full-colour screen with 4096 colours. And not to forget, all this comes packed in a unit that is 158x56x27 mm in dimension with a net weight of 244 gram. And if you have a grouse against the tiny keys on these and similar devices, take comfort—the Nokia Communicator has bigger keys and even a new user interface.

↑ IBM Netvista X40i

Sleekonomics

It stands a class above its predecessors in terms of design and compactness. It's clean, sleek looks are enhanced by the flat panel monitor. Except for the keyboard and the mouse, everything else is compactly stashed above, below or beside the monitor. The motherboard and the hard drive are discreetly integrated behind the display.
