Remote control your PC

This workshop will show you how you can operate your office PC from the comfort of your home.

Workshop

Learning the art of computing

For newbies and tech veterans alike, our workshops will help you come to grips with some of the basic—and at times not so obvious—features of computing.

Test Drive

Product Watch

From comparison tests to individual product reviews, we've got it all. Our reviews spell out the pros and cons of each product to help you make an informed buying decision.
