

SD-AV30 SD A/V ►►

One-stop digital solution

The SV-AV30 is a 4-in-1 that allows you to take your world of audio and video with you. You can record up to 90 minutes of smooth motion video in the MPEG4 format, at a resolution of 320 x 240. It holds up to 3 hours of MP3 or AAC-compressed audio files, and can be used to take photographs in the JPEG format.

Tempting Toys

Powered by cutting-edge tech wizardry, here are a few toys to lust after

▲ Hitachi G1000 SMS delight

The Hitachi G1000 uses the Pocket PC 2002 OS and has a 400 MHz processor with 32 MB of RAM. It has a rotating camera which can be used to take pictures at a resolution of 640 X 480 pixels. It also has a full text QWERTY-style keyboard.

▼ Nokia Fun Camera Click away in style

The Fun Camera is compatible with Nokia MMS phones, via a Pop Port connection. It also has a built-in 1.5 m flash, and comes with 8 MB of internal memory. The images can be taken at three different resolutions—with a maximum resolution of 640 x 480.
