

INTERNET

Keyboard shortcuts are useful when you need that little extra control over your surfing ways. Indeed, they are of great help when filling Web forms, moving to a different tab, completing a Web address that's been typed over a million times, etc. Here are some useful key combinations that give you a tighter grip over your Web cruises

Command	Internet Explorer	Opera	Netscape
Add Bookmark	[Ctrl] + [D]	[Ctrl] + [T]	[Ctrl] + [D]
