Sony Overhead Drop Down Display Screen ►►
New luxuries on the move

Here's a 7-inch drop-down LCD for your car that can be connected to any portable DVD player. It has 16 x 9 widescreen aspect ratio TFT screen and a motorized fold-down panel. It also integrates an infra-red transmitter for headphones.

Entertain
you

Here's a look at a few products that take entertainment to the end of the earth, and cost about as much

◄◄ **BeoLab 5 Speaker System**
Unidentifiable flying speakers

These 2500 Watt speakers from Bang & Olufsen weigh 60 Kgs each, and use flying saucer-like radiators to disperse sound in a more natural fashion. A Digital Signal Processor (DSP) and a moving microphone sample the various self-emitted frequencies and re-adjust the output.

SONY DVD Player ►►
(400 disc-changer) - DVP-CX777ES2
Four centuries of music

Sony's DVP-CX777ES2 is a DVD player with Disc Explorer System that can store and organise up to 400 discs. The on-screen graphic interface lets you choose your music title, disc type or genre wise. The Jacket Picture function records disc jacket pictures that appear automatically when a disc is accessed.
