Gameplay (9/10):
Great work here too. Its basically a squad based action game. You get to control various squads (Base Fire, Assault, MG Squad and Bazooka Squad). It depends on the missions as to which squad you will get to control. In the beginning you get to control Assault and Bazooka. Then Assault and Base Fire. As you near the end (last 3-4 missions), you will get to control Base Fire, Assault and MG. The shooting is mostly like a normal FPS with cover tactics like Gears of War and R6 Vegas. There are 3 missions in which you get to control a tank. The tank works flawlessly. The game's physics are good and its nice to see the limbs of the Germans flying. All in all, its good. Though it has some flaws. The reloading is very awkward. Sometimes you dont get to see the reloading animation but the weapon is reloaded and sometimes you can only hear the reloading sound and not see the animation. Another on is the grenade system. Its messed up. I was hardly able to throw grenades where I wanted to! But these can be over looked.

Final Verdict:
Definitely recommended. It will last for a good time too! Took me 9 hours to complete the SP campaign. The story alone is worth it.

Sound (9/10):
Great sound and amazing voice overs. Some of the best voice acting I have experienced. Apart from that, the ingame sounds are great too. The guns sound like they should and explosions are also decent.

Story (10/10):
The story is just mind-numbing. Its better than many games leave alone war games. Its unimaginable how the devs fit in such a story in a WW2 based game. It shows the turmoil of war and the pain of losing your friends. It displays the hardships one has to face to suppress a guilty secret within you. The game is a must play for its story only.

Graphics (8/10):
Good details present on the characters, weapons and other objects. The cutscenes are made with great care and the facial expressions look very real. There is one flaw with it though, the water. Large bodies of water (rivers, lakes) look like complete POS. Hope they will take care of it in the next game. Otherwise, great work here.
