

Anti Gravity Globe

The Levitron Anti Gravity Globe, is both, a great display piece and a toy for children. Microchip controlled electromagnets levitate a slowly revolving globe above an anti-gravity base. There are no anti-gravity waves involved, but the resulting effect is stunning nonetheless. Unfortunately, the countries and the continents are labelled, spoiling the effect a bit. Order one of these at Thinkgeek or Amazon for \$80 (Rs. 4,282)

MasterOne

The Swiss audiophile company has come out with a new model of speakers, called the Piega MasterOne. Piega's claim with the MasterOne is that these are the first dipole speakers that are designed as a single source of sound, which makes the speakers crystal clear even in demanding room conditions. A single unit is available for \$20,850 (Rs. 9,92,055)

Switchblade

The Samson Motorworks Switchblade is a sleek, aerodynamic flying motorcycle designed with Ferrari aesthetics. The three wheeled motorcycle with a 120 hp engine has retractable blade wings. The motorcycle seats two people side by side, and has a small storage space at the back. The range of the bike on ground is 1,400 kilometres, and 550 kilometres in the air on a single fuel up
