Fancy Desktop? Here's how digit reader **Akshat Tandon** from Lucknow did it:

PC is running Windows 7 with desktop customising software Bump Top is providing all the 3D wall effects. A theme for Bump Top called Under the Ice is used to provide all the frosting. The two gadgets are standard Windows 7 gadgets, one is the clock gadget provided by default and other is the weather bug gadget. The Aero Firefox is created by the use of following addons - Strata40, Strata Buddy, App Tabs and Fission. The icons are arranged manually. The photo frame and the sticky note are simply default features of Bump Top.

Crack The Code Contest

There's over Rs.10,000 in prizes to be won, but even better, you get to brag to your friends and tell them how you beat our code.

Your first clue:

How many boys are standing in front of the school on the cover? The answer is the page number where your next clue is.
