

Heavy Rain

A heavily scripted console game is supposed to be super immersive and will actually evoke emotions of anxiety from the player

Real life Rail Gun

The US navy has a real life version of our favourite q3 weapon. Check out the video at <http://bit.ly/9SqQev>

Watch
The up close and personal
video of NVIDIA contest winner
Abhishek Tripathi on this
month's Playware DVD

Abhishek receives the ZOTAC Mag from Asheesh Gupta, Publishing Director, 9.9 Media.

"I used the 3D glass provided with the card, and you will not believe me if I tell you, the card has turned games into actual 3D. I really cannot tell you how great it feels. Imagine, watching a 3D movie and playing a 3D game."

— Abhishek Tripathi

in one of his blog posts during the contest. On the video interview he says being part of the community gave him a kick. Watch the video on the Playware DVD for the full story and Abhishek marveling at the Zotac Mag.
