- Intel® G41 + ICH7 chipset
- FSB 1333/1066/800 MHZ
- ASUS Turbo Key
- ASUS EPU-L
- Dx10 Support

Anti-Surge

Exclusive hardware solution provides constant protection against incidental power fluctuation. Power fluctuations which are a matter of grave concern will no longer trouble Indian PC users as ASUS G41 Chipset motherboards are backed by a helpful Anti Surge (AS) technology that provides protection against power surges or unstable power fluctuations.
