**TOP QUALITY &
STABILITY**

Hi-C CAP

Highly-Conductive Polymerized Capacitor

• Tantalum Core

- 8x longer lifetime than traditional Solid CAP
- Flare, highly stable Tantalum core
- Higher thermal stability
- Self-repair ability

Icy Choke

• New Generation Ferrite Core

- 20°C lower temperature
- Stable power supply
- Higher power efficiency

Solid CAP

(Solid Capacitor)

• Aluminum Core

- 10 years ultra long lifetime
- No explosion
- Extreme low ESR
- Lower temperature
