

GET THE DEGREE THAT WORKS TO HELP YOU RIDE THE IT UPSURGE.

Admissions open to 40 courses, including MCA.

After the recession, IT companies are back on the upswing, expanding their employee base. According to recent news, TCS and Infosys are looking at hiring a record 40,000 and 15,000 employees respectively.

With the IT boom back after the recession it seems the perfect time for professionals interested in IT to prepare for a long, and fruitful career in the field. With nearly 1.5 million jobs that require managerial skills coming up by 2015, the **need is for a degree that works to impart career-making.**

This need is understood perfectly by Sikkim Manipal University-Distance Education (SMU-DE) programme whose curriculum focuses around preparing professionals for a glittering career in the field of their choice. SMU-DE offers nine IT courses including Masters in Computer Application, Computer Science and Information Technology (MCA, MSc CS and MSc IT) along with Bachelors in Computer Application and IT

(BCA and BSc IT), all of which have industry-relevant curriculum and design.

Only SMU-DE students have access to **EduNxt™**, a **multiple-award winning, web-based learning system** designed for professionals who desire flexible and convenient studying. EduNxt™ allows students access to faculty and industry mentors, mock tests, learning objectives-based SLMs, videos, presentations, discussion forums; all available 24x7! Add to that SMU-DE's 725+ learning centres located across the country with EduNxt™-certified academic counselors who clarify any doubts students may have, now job transfers can't stop your studies.

"The course from SMU-DE is the ideal option for **w o r k i n g** professionals because all study materials & updates are available online which is very convenient."

Abhishek Bhattacharya, MCA,
*Barry Systems Solutions,
Software Developer.*

"The MSc IT course I did from SMU-DE landed me a job with HCL. The course gave me a great start in my career and I sincerely thank SMU-DE for providing such a quality programme and support at the Learning Centres."

Raja Sarkar,
*MSc IT, HCL,
Sr. Software Engineer.*

SMU-DE is known for on-time delivery of courseware, exams and results. So it is not surprising that SMU-DE students have found ready acceptance in industry with employers such as IBM, Wipro, HCL to name but a few.

To bank on the IT upsurge and give your career a headstart, enroll in SMU-DE and get the degree that works.
