WE SAY

Zebmate 20 has a poor build quality with buttons requiring hard press. It does produce decent sound, if you use a good pair of earphones. At ₹1,350, this PMP is very economical for casual listening. Not meant for music enthusiasts.

6.0

EX 30 is not disappointing at all in terms of quality. The performance is also decent. But at ₹12,000, it's hard to recommend. We would rather recommend you to go for a chassis and motherboard upgrade. Go for it only if you need external storage.

6.0

Ideal for classrooms. We recommend this product for educational purposes and has tremendous potential to grow in that area if developed correctly. User interface design is simple and easy to understand. Layout is pretty good as well.

7.0

Good overall performance – transfer rates are 27.1 MB/s for write and 33.6 MB/s while reading. The aluminium body gives it an elegant finish and a good build. The price of ₹2,800 is a bit expensive. Should have been around ₹2,100 to ₹2,400.

6.5

SPEAKERS

X-mini Max II
Price: ₹2,990

X-Mini V1.1 Black
Price: ₹1,290

WE SAY

No replacement for desktop speakers. But ideal for carrying around and playing music from your MP3 player or phone provided it has an audio jack. At ₹2,990, this is a bit expensive for a pair of speakers that could have been great performers.

5.5

We recommend it for its competitive pricing and decent sound quality. Also, the option to connect as many X-Mini capsules via the buddy Jack connection, makes it quite impressive. The price of ₹1,290 is quite a decent price for this portable speaker.

6.5

Entry level speaker with passable mid frequency response. Clarity is not one of its high points. But it can be used for casual listening. At a price point of ₹1,300, we feel this product is priced on the higher side. The gaudy red colour does not add to the aesthetic appeal.

5.0

An ideal product for those who would like to share the listening experience of their MP3 music player with a group. Resonator section adds some depth to the music which is good. It is priced at ₹1990 which we felt is a bit expensive.

6.0
