WE SAY

Ideal for teenagers, who are into gaming as the design makes them stand out. Not for the discerning listener as the sound quality is not upto the mark and due to slanting design, ear pieces do slip. At ₹1,479, the iCon 2 is quite economically priced.

6.5

Mid range frequencies were quite good. Amazingly tight bass. Crisp highs. This is one great set of in-ears that we have tested in quite a while. Its response across the frequency spectrum is flawless. Recommended at the price of ₹1,990.

6.5

It sounded coloured in some tracks, not in a good way. Bass was decent but higher frequencies leave a lot to be desired. Sound isolation is quite good though. Comes with many ear tips across sizes. The price of ₹1,250 is economical.

6.0

G-Fone 777 is ideal for those who are looking at a budget touch-screen phone with decent camera and who will indulge in a lot of social networking. Multi tasking is absent and touch response is not that great either. Competitive pricing at ₹5,299.

6.0

MOBILE PHONES

Movil MC100
Price: ₹4,499

Fly MV135
Price: ₹3,949

WE SAY

Touch-screen smart-phone targeted at the multimedia segment, with the 3D-Yamaha power amplifier. At the price point of ₹4,499, the MC100 gives you true value with apps like mobile tracker. Camera quality is not so good though.

6.5

MV135 is a good dual-SIM multimedia cellphone justifying the tag - "phone theatre". At a price of ₹3,949, it makes a good buy with appealing display quality and multimedia speaker performance. However, video recording is not very good.

7.0

The Huawei U9130 is a feature-rich business cellphone with 3G data services including browsing, email client service with push email etc. Overall, it makes a great buy at ₹6,999, if you could overlook the quality of the camera and loudspeaker.

7.0

The Huawei C5600 is a feature-rich multimedia smart-phone with OMH CDMA data-service capability as its USP. Lifestyle features like sensex updates, sports updates etc. add value. Overall, it is a good buy at ₹3,999.
