Sony DVD Handycam DCR-DVD300 Camcorder ►► **3-inch DVD memories**

First, we will tell you that the DCR-DVD300 won the Innovations Design and Engineering award at the 2004 edition of the hip Consumer Electronics Show. Now, we tell you why: It records videos and still

images on a three-inch DVD-R and DVD-RW media, and comes with a powerful Carl Zeiss Vario-Sonnar lens along with a Super Nightshot 0

Lux recording system that captures images at even 10 feet in total darkness. It has in-built SteadyShot technology, and allows in-camera editing. Connects to a PC using a USB 2.0 interface. Now you know!

Price: US\$1,099

CES Rocks!

The Consumer Electronics Show at Las Vegas showcases only the very best of products. Here come the digital objet d'arts for a lifetime

◄◄ **Klipsch KES-6100-THX System** **Popcorn not included**

Imagine a universal DVD player that accepts SACD and DVD-Audio. Imagine six 100-watt speakers, a 5.25-inch aluminium woofer, and a 300-watt subwoofer with eight-inch aluminium output woofers. Imagine four external A/V inputs that have a mouthful of certifications—Dolby Digital EX, ProLogic IIx and THX, among others. Now imagine this supercreature a reality.

Price: US\$4,000

Sanyo Fisher FVD-C1 Pocket Camcorder ►► **Rolls out the tapes**

Ladies and gentlemen, we have another CES Innovations winner on our hands!

Sanyo Fisher's latest pocket camcorder gives you DVD-quality MPEG-4 video and high-resolution still images on a tape-free platform, thanks to its 512 MB

SD memory card that stores more than 30 minutes of video, or around 500 images. It also gives CD-quality audio reproduction, 5.8X optical zoom and USB 2.0 connectivity. All this at a weight of just 153 gm. How cool is that?!

Price: US\$899.95
