

◀ Panasonic SV-AV100 D-snap SD camcorder

▶ The smallest of them all

The SV-AV100 claims to be the world's smallest MPEG2 camcorder, but we don't know if there's a Guinness entry for that yet. At 1.25 x 2.125 x 3.5 inches, it's possible! You get DVD-quality video, and a remote!

Price: US\$ 700 (approx)
