The Samsung and Xerox units can store 200 pages of faxes in their memory. Even if you run out of paper, you can still receive the faxes

copying on both sides of a page, but you need to use the ADF. The Poster feature scans an image, and then copies parts of the image onto nine pages that you can stick to get a huge poster. The Samsung unit comes with three buttons for Toner Save, Power Save and Paper Save that work!

Faxing

All, except the Canon iR1210, are capable of faxing. The fax consoles are extensive, allowing one-touch dialling, auto-dialling, searching, etc. None of the units have a telephone handset. Samsung has incorporated an 'On Hook' button that informs you if the machine on the other end is engaged. The

Samsung and Xerox MFDs can store 200 pages of faxes in their memory.

Verdict for A4 heavy-duty MFDs

Samsung and Xerox have a generous software bundle, but Samsung's SmarThru, is quite useful in day-to-day business. SmarThru allows you to control every function of the MFD through a single interface. The interface has tabs for printing, scanning, OCRing, send to e-mail client, etc. Overall, both the Samsung and Xerox MFDs were on par with each other in performance. What went in favour of Samsung was its superb software which ultimately saw it clinching the
