

A dramatic poster for the ZERO 1 AWARDS 2004. The central focus is a large, dark stone pyramid with a metallic staircase on its left side. At the very top of the pyramid sits a large, glowing orange sphere, which is part of a metallic structure resembling a film camera's viewfinder or a telescope. The background is a swirling, ethereal mix of green and yellow light, suggesting a nebula or a storm. The text 'ZERO 1' is written in large, bold, white letters with a slight 3D effect, and 'AWARDS 2004' is written below it in a similar but slightly smaller font. The pyramid's base features a recessed area with three golden columns and a small entrance, and the sides of the pyramid are adorned with ancient Egyptian-style hieroglyphs and statues.
