

DIGITAL PASSION

Solar 1.0

Solar is an advanced, secure software protection and licensing system that allows you to protect your program

from unauthorised users, while providing you with a reliable yet easy-to-implement licensing system.

Actual Drawing

Actual Drawing is a visual publishing tool that helps create Web pages without you

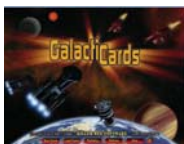

having to know HTML, allowing you to drag and drop page content. The program has its own image-manipulation tools, so you don't need to use a third-party image editor.

Synopsis—Visual Programming Tool 1.1.10

Synopsis is a visual programming tool that dramatically accelerates software development. By dragging and dropping icons and connecting them with graphical links, it is possible to assemble complex programs literally in seconds.

Galacticards 1.002

In Galacticards, five players start out with a home world, some defensive ground units, and a hand of five cards with which they begin their struggle to become the largest species in space.

Canto Pod 2

This program quickly puts song lyrics on your iPod at no cost. After you connect your iPod and open the application, be sure to check the Settings panel to make sure the proper drive is selected. While you can enter a search term to find a particular track, it's easier to simply have the program display all tunes on your iPod. From there, you can simply check boxes for songs you'd like lyrics for.

Pocket Tunes 3.1.1

Regardless of whether your mobile device shipped with a dedicated music jukebox, Pocket Tunes still makes a strong case for itself as an alternative solution. After you've imported MP3, WMA, or OGG files to your Palm's expansion card, the program will immediately recognise them once you start it up.
