

TP-LINK®

The Reliable Choice

ADSL·3G·EWAN

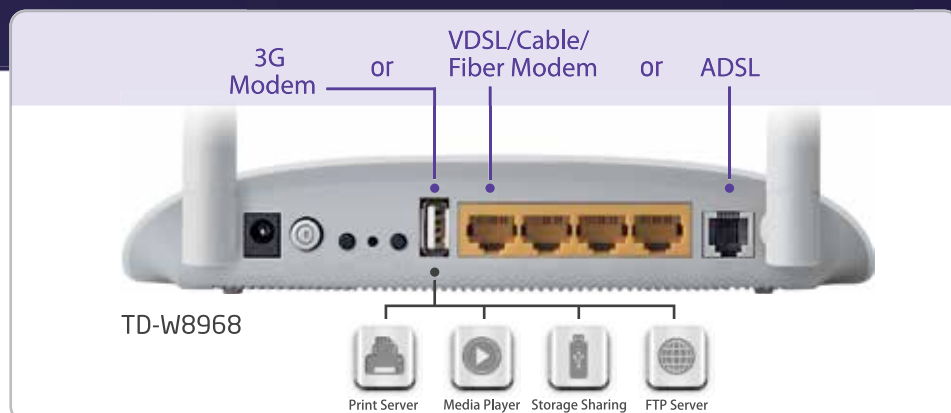

Various Internet Access Methods

300Mbps Wireless N USB ADSL2+ Modem Router

TD-W8968

TP-LINK's TD-W8968 Wireless N USB Modem Router is a real world all-in-one device, allowing users to access the Internet via ADSL, Ethernet WAN using its interchangeable LAN/WAN port, or 3G connectivity by plugging a 3G modem into the modem router's USB port. Various connectivity methods provide increased flexibility to access the Internet and a robust failover strategy ensures that you are always online. What's more, users can easily share printers, storage or media files with the versatile USB port.

- Ethernet WAN Function
- 3G Sharing Enabled
- Versatile USB Sharing Port
