Like: The Lumia 1020 is SHARP! The iPhone has better contrast

Once again, the lower contrast levels of the Lumia 1020 are present, but the centre crop shows that the Zeiss optics are totally dominating the iPhone's lens. The crop shows that the Lumia 1020 renders a much sharper image, something to be quite mindful of.

Shooting in low light, good with both cameras!

This is oil on canvas and as you can see from both the shots, the 100% crops are rather devoid of the canvas texture. However, what is evident is that the Lumia 1020 shot has lesser noise, while the one from the iPhone 5S shows a little bit of grain. We explore more low capabilities in a few moments.

The advertisement features a blue background with a white 3D Christmas tree and the year '2014' in large white digits. Below the tree is the text 'Happy New Year'. Four thin client models are displayed: a black tower unit labeled 'High End Thin Clients', a white desktop unit labeled 'Corporate Thin Clients', a black desktop unit labeled 'Zero Clients', and a black desktop unit labeled 'Advanced Thin Clients'.
