

CURVACEOUS BLUE PRISM

HAVING A POWERFUL MACHINE DOESN'T MEAN YOU SHOULD COMPROMISE ON DESIGN.

We are into advance world where everything is operated by Internet, every small thing needs a wireless connectivity let it be your Laptop, Smartphone or that small device you connect with Internet. We are bound to live in this Wireless world of today. If you agree to above point, Router is a first thing which tickles our brain cells when we think of Wireless world, let's say Wi-Fi is something which we primarily expect from a Router and there are very few companies who have mastered themselves in providing customer with an Reliable choice for their home or offices. Below is detail of one such solution provided to you by TP-LINK, Archer C20 (an affordable blue prism).

WHAT IS ARCHER C20?

TP-LINK's Archer C20 comes with the next generation Wi-Fi standard – 802.11ac, backward compatible with 802.11n and 3 times faster than wireless N speeds. With higher power efficiency and robust security, 802.11ac is the perfect way to accelerate a home multimedia network and solve congestion that multiple devices may cause.

733MBPS DUAL BAND CONNECTIONS FOR LAG-FREE WORK AND ENTERTAINMENT

With 433Mbps wireless speeds over the crystal clear 5GHz band and 300Mbps over the 2.4GHz band, Archer C20 offers you the flexibility of two dedicated networks and ensures amazing wireless performance. Simple tasks such as sending e-mails or web browsing can be handled by the 2.4GHz band while bandwidth intensive tasks like online gaming or HD video streaming can be processed by the 5GHz band – all at the same time.

STABLE OMNIDIRECTIONAL SIGNAL AND SUPERIOR COVERAGE

With 2 fixed external antennas combined with higher quality antenna technology, you can experience excellent wireless performance with stable signal in every direction and high speed across greater distances. This provides you with incredible wireless coverage and reliability from anywhere in your large home or office.
