

Everything folds!

HONOR MAGIC VS

Honor Magic VS was launched in November 2022 in China and the company has announced the phone globally in MWC 2023. The foldable phone comes with a 7.9-inch foldable

OLED display which supports 10-bit colours, 90Hz refresh rate and HDR10+. The cover display is also the same OLED panel but with 120Hz refresh rate

support. The phone is powered by the Snapdragon 8+ Gen 1 processor paired with 8GB and 12GB RAM. It runs on the Android 13 based MagicUI 7.1 operating system. Honor magic VS comes with a triple camera setup holding a 54-megapixel primary camera, an 8-megapixel telephoto sensor and a 50-megapixel ultrawide lens. It sports a 16-megapixel selfie shooter. It packs a 5000mAh battery and supports 66-watt fast charging.

ONEPLUS FOLDABLE

OnePlus just announced its first foldable phone which is also named OnePlus Foldable. The specifications of the phone are not out yet and it will be launching in the second half of 2023. Kinder Liu, President, and COO of OnePlus at the company's MWC panel discussion said, "Our first foldable phone will have the signature OnePlus fast and smooth experience. It must be a flagship phone that doesn't settle because of its folding form, in terms of industrial design, mechanical technology, and other aspects. We want to launch a device that aims to be at the pinnacle experience of today's foldable market."

Tecno Phantom V Fold

Tecno launched its first foldable phone known as Tecno Phantom V Fold at the Mobile World Congress 2023. The Tecno Phantom V Fold is a horizontally foldable phone which goes left to right, unlike the other foldable phones which go right to left. Tecno claimed that the

Tecno Phantom V Fold is going to be the first foldable smartphone which opens left to right. Even though Tecno unveiled the foldable phone, the company hasn't revealed too much. We have the design, performance and a

little hint of a camera. Let's take a look at all these three segments of Tecno Phantom V Fold. It is powered by MediaTek's Dimensity9000+ chipset. The phone comes with dual-sim support and a 5G processor which is said to be designed especially for the Tecno Phantom V Fold by using TSMC 4nm process. Tecno revealed that Phantom V Fold scored 1.08 million on the Antutu test.

OnePlus one

At Mobile World Congress 2023 in Barcelona, OnePlus revealed its new concept phone. Aptly called the OnePlus 11 (₹61999 at amazon) Concept, the phone comes equipped with a new kind of liquid cooling tech called Active CryoFlux. The company detailed how this works. Besides it, we also got to learn more capabilities of the vanilla OnePlus 11 like its compatibility with the Snapdragon Spaces™ XR platform and ray tracing in games.

SNAPDRAGON SPACESTM

OnePlus welcomed developers to use the OnePlus 11 to drive Snapdragon XR2 AR Wireless Smart Viewer using the Spaces™ developer platform. Only time can tell

what augmented reality content we will get to see thanks to this.

RAY TRACING SHOWCASE WITH PERFECT WORLD GAMES

OnePlus 11 also leverages the ray tracing capabilities of the Snapdragon 8 Gen 2 chip inside. This is put to test using the Tower of Fantasy game from Perfect World Games. At the MWC venue

in Barcelona, the company has organized experience zones for these and its latest releases like OnePlus 11, OnePlus Buds Pro 2, OnePlus Pad, and OnePlus 45W Liquid Cooler.
