

SPEND WISE

Everything comes at a cost, and the cost of gadgets is insane!

Satvik Pandey | satvik@digit.in

Buying gadgets as a student using your savings or allowance money can be an uphill battle that you need to find. On one hand, you have the temptation to get the best gadgets that are out there while the funds or the lack thereof, holding you back. So, there is a very fine line that you need to walk here. There are two paths that you can go down – resist temptation and go for the budget alternative of your dream gadget, or get your hands on used gadgets or hand-me-downs from your seniors.

If you are planning on buying new gadgets, then we have compiled a list of some essentials that we believe you'll need. However, if you are looking for used gadgets, there are some tips that you should keep in mind. Listings on the internet can be misleading. We are not saying that everyone is out there to scam you, but there's a good number of people that are out there to make a quick buck by passing off their junk as useful stuff. So, whenever you are planning on getting a used gadget, make sure you get some hands-on time with it. I understand that you might not be able to test the gadget that you are buying thoroughly, but at least you can vet out any glaring issues which would have otherwise gone unnoticed. And, remember – If it seems too good to be true, it probably is.

Headphones

KZ - EDX PRO

The KZ EDX Pro is a beginner audiophile-friendly wired pair of earphones with a 10mm driver. The earphones

have a frequency response range from 10Hz-20kHz. The earphones come with a 5N oxygen-free, 2-pin upgradeable flat cable that can be detached from the earbud with ease. It also has an HD microphone and an inline multifunction button. The impedance is 24ohms, so mobile phones can also drive these IEMs easily.

₹1,199

realme Buds Air 3

realme Buds Air 3 have a pleasant sound signature that works well with most popular genres of music. That aside, what makes the Realme Buds Air 3

stand out is its colossal feature set. The Realme Buds Air

3's feature set can rival not just mid-range TWS but also high-end ones. Equipped with IPX5 water resistance, customisable controls, multipoint connectivity, Dolby Atmos support, and 30 hours of playback time, the Realme Buds Air 3 is easy to recommend to those who want top-of-the-line features without breaking the bank.
