

NPS scores. We have achieved an overall 91%+ NPS, the highest score in the industry. We aim to maintain this momentum and ensure our customers receive the highest standard of service quality. Our plan is to expand to more than 200 service centers this year to cover 532 cities, with 727 service centers in total. In addition, we will also link 47 exclusive service centers with sales points where customers can purchase realme products.

Q Tell us about realme's product strategy for 2023?

A realme is poised for a great leap forward in 2023. Our unwavering commitment to listening to our customers' feedback has always been at the forefront of our product development, and we understand that consumers demand powerful, visually appealing, and user-friendly products. Following the "Spire Strategy", we aim to elevate each product series by incorporating one leap-forward technology that will serve as the pinnacle of our formidable realme product line. The product approach focuses on three major components: leap-forward technology, leap-forward design, and leap-forward experience. realme is determined to include innovative and cutting-edge technology in our products, providing the latest advancements in the industry to our users. We aim to deliver premium and aesthetically pleasing designs that distinguish us from others in the industry. Moreover, we strive to provide an overall user experience that is superior in every way - upgraded, efficient, and economical. Our brand strategy is entirely customer-centric, and our goal is to exceed their expectations by setting a new standard for the industry. With the "Spire Strategy" approach, each product series will feature a breakthrough technology that represents the pinnacle of our robust product line. We are thrilled to share that the realme Number Series will be the hero series for this year, packed with innovative features and functionalities that cater to our customer's needs. Our team is

tirelessly working around the clock to bring new breakthroughs to this series. In addition, our premium flagship GT series will be equipped with cutting-edge capabilities that we believe will revolutionize the industry. For example, our recent product, which we showcased in MWC 2023, realme GT 3 boasts 240W charging capabilities, and we have plans to introduce even more trendsetting features in the future. Finally, we are committed to redefining the realme C Series this year, emphasizing on premium designs and massive storage capabilities, cameras with higher megapixels, and faster charging capabilities that will set a benchmark in the industry. We are excited about the year ahead and eager to share more details with our customers in the coming months.

Q How does the C series of products fit into realme's Go Premium strategy?

A We are committed to providing our customers with innovative and high-quality products that cater to their evolving needs. realme C Series is an essential part of our Go Premium strategy, which aims to make great and cutting-edge features accessible to everyone. With the upcoming C Series, we are redefining the entry-level smartphone range with strategic upgrades by introducing cutting-edge technologies and features. The realme C Series represents our belief that everyone has the chance to enjoy the champion moments in their life. We strive to inspire and support young people globally to pursue their passions and dreams. The series embodies the spirit of a champion, symbolizing being a champion, one need not seek validation from anyone, for the true essence of championing lies within oneself. It is the sheer joy and love for an activity that propels our users forward. We are confident that the new upgrades in the C Series will meet the expectations of our customers and provide them with an exceptional user experience. Through this, we would like to encourage everyone to embrace the spirit of the Champion series together

and strive for excellence, pursue their dreams, and cherish their champion moment. The new range of C Series smartphones will lead the segment with its unparalleled tech upgrades in four key areas: camera, storage, charging, and design. Our commitment to providing higher megapixel cameras, large storage capacity, faster charging capabilities, and premium designs will enhance the overall user experience.

Q What can we expect from the C series this year?

A This year, we are thrilled to announce a strategic upgrade to our realme C series, which represents the concept of a champion, reflecting the pinnacle of excellence. We believe that everyone has the potential to be a champion in their life, and we aim to inspire and support young people globally to pursue their passions, embrace their dreams, and enjoy the journey that leads them to greatness. The new range of C Series smartphones will lead the segment with its unparalleled tech upgrades in four key areas: camera, storage, charging, and design. The redefined C series will sport cutting-edge technology, trendsetting design, and unparalleled user experience, all united to deliver a Champion standard. –The new advancements in the realme C series are in line with our "Spire Strategy", we will ensure that each product series in our smartphone portfolio will lead with one major leap-forward technology, which will be the spire of a robust realme product tower. We believe that high-quality products should be accessible to everyone. Our diligent efforts to create and manufacture high-quality products at reasonable prices have enabled us to offer a wide spectrum of offerings to our valued customers. Additionally, we are pleased to share our exclusive offers for students on our realme C55. We believe every user deserves the chance to experience the best tech lifestyle, and with our new upgrades, we hope to continue to inspire and support young people in achieving their dreams. d
