

Display

Oppo F23

- The Oppo F23 offers an AMOLED 6.72 inches screen with 1080 x 2400 resolution and a 240 Hz refresh rate.
- The device with 76.1 x 165.6 x 8.2 mm dimensions comes in two colour alternatives, Cool Black and Bold Gold.

Realme 10 Pro +

- The Realme 11 Pro + features a AMOLED 6.7 inches display with 1080 x 2412 pixels resolution along-side a 120 Hz refresh rate.
- The smartphone offers three colour options Dark Matter, Hyperspace, and Nebula Blue with 73.9 x 161.5 x 7.78 mm dimensions.

POCO X5 Pro

- The POCO X5 Pro sports an OLED 6.67 inches screen with 1080 x 2400 pixels resolution and a 120 Hz refresh rate.
- The cell phone offers colours in Yellow, Horizon Blue, and Astral Black with 76.03 x 162.91 x 7.9 mm dimensions.

Camera

Oppo F23

- Oppo F23 offers a triple camera set with 64 MP (Wide Angle) + 2 MP (MONO) + 2 MP (Microscope) with an LED flash.
- The device features a punch hole front camera 32 MP (Wide Angle) with screen flash.
- The smartphone offers a decent range of photography options compared to that of the other two models on the chart.

Realme 10 Pro +

- 108 MP 24mm (Wide Angle) + 8 MP 16mm(Ultra Wide) + 2 MP (macro) with an LED flash
- Realme 11 Pro Plus sports a punch hole front camera 16 MP 25mm (Wide Angle) with screen flash.
- The smartphone features more than 10 unique photography

modes such as AI Scene Recognition, Night, Professional, Panoramic View, Portrait, Street, 108M, Macro, Starry, and Group Portrait.

POCO X5 Pro

- POCO X5 Pro features a trio camera setup 108 MP (Wide Angle) + 8 MP (Ultra Wide) + 2 MP (Macro) with dual-LED flash.
- The smartphone just like the other two has a punch hole front camera 16 MP (Wide Angle)
- The device flaunts more than 10 different modes of photography namely: Long Exposure, Night Mode, Portrait Mode, Document Mode, Pro Mode, Movie Frame among others.

Battery

Oppo F23

- 5000 mAh, Li-Po Battery with 67W SUPERVOOC charging with 8 GB RAM and 256GB storage.
- Up to 8GB extra virtual RAM and card slot for up to 1TB storage expansion.

Realme 10 Pro +

- 5000 mAh, Li-Po Battery with 67W SUPERVOOC charging with 6GB RAM and 128GB storage.
- The smartphone offers up to 8GB extra virtual RAM.

POCO X5 Pro

- 5000 mAh, Li-Po Battery with 67W fast charging with 8GB RAM and 256GB storage.
- The smartphone unlike the other two offers up to 5GB extra virtual RAM

Processor

Oppo F23

- The Oppo F23 runs on Qualcomm Snapdragon 695 and is powered by 2.2 GHz, Octa Core Processor.
- In addition, the smartphone operates on Adreno 619 GPU and is runs on Android 13 with ColorOS 13.1. Which might attract the fans of the OS skin.

Realme 10 Pro +

- The Realme 10 Pro + features the Mediatek Dimensity 1080 2.6 GHz with Octa Core Processor.
- The smartphone is powered by the ARM Mali G68 MP4 GPU and operates on Android v13 with Realme UI 4.0.

POCO X5 Pro

- The POCO X5 is operated on Qualcomm Snapdragon 778G 2.4 GHz and is driven by Octa Core Processor.
- The device is powered by the Adreno 642L GPU and utilises Android 12 as the operating system with MIUI 14.

Comparison

Having mentioned all the details of the three devices these are a few observations that can be highlighted from the technical information that we have of the smartphones.

The Realme 10 Pro+ and POCO X5 Pro offer similar camera specifications, however, the OPPO F23 lags behind with a lower resolution primary camera sensor. As for display tech, both the Realme 10 Pro+ and the POCO X5 Pro pack AMOLED displays with support for 1 billion colours and HDR10+ but the POCO X5 Pro takes it a step further with Dolby Vision capabilities.

Unfortunately, the OPPO F23 lags behind with an IPS LCD display with no HDR support. Where the OPPO F23 pulls ahead is higher resolution selfie camera versus the other two – 32-megapixels versus 16-megapixels – and support for memory expansion via microSD card.

What do you think of the three devices? Do they do any justice to the price range they have set with the specifications they are offering their customers or are there any other cell phones in the same price range that are better contenders. Write to us and let us know what you think at editor@digit.in.
