

# Realme's Bazul Kochar on everything you need to know about Realme Narzo 60 series

**Dhriti Datta** | dhriti@digit.in

**R**ealme just launched its latest Narzo series of smartphones including the Realme Narzo 60 and Realme Narzo 60 Pro. The company claims that the Realme Narzo 60 Pro is the first and only smartphone in its price segment to come packing 1 TB internal storage, and a few other segment firsts such as Auto Zoom. The Realme Narzo 60 5G was unveiled today starting at ₹17,999 and the Realme Narzo 60 Pro 5G starts at ₹23,999. To understand what sets these phones apart from the competition, we spoke to Bazul Kochar, Product Manager, realme India. The conversation was quite insightful and we learned about the technological advancements made for the Narzo 60 series, realme's R&D team, their partnership with Amazon and Flipkart for the Narzo and Number series respectively, and more!

**Q** realme has a reputation for providing power for the entry-level segment, especially with its Narzo series. How has the audience reception been to the narzo series?

**A** realme takes pride in constantly striving to offer cutting-edge technologies and powerful features, ensuring that our customers receive exceptional value for their investments.

When it comes to the narzo series, we are thrilled to share that the audience reception has been nothing short of phenomenal. Here we can mention we get 1M user base increase within 1 year - last year it was 12.3M and now we

Product Manager, Realme India

have a user base of 13.4M. Embracing the next-gen tech of the narzo lineup, we have garnered widespread acclaim from tech enthusiasts and consumers alike. Here are some key highlights of the audience reception:

**Unmatched Performance:** The narzo series has consistently delivered exceptional performance in its price segment. Powered by robust processors and optimized software, these devices provide a seamless and fluid user experience, whether it's multitasking or day-to-day tasks.

**Bold Design:** realme has always placed a strong emphasis on design aesthetics, and the narzo series is no exception. Its eye-catching and contemporary designs resonate well with our young and dynamic user base of 13.4 million in India, making a bold state-

ment while reflecting their individual style. Specially, N53's design which is the thinnest realme smartphone ever at 7.49mm, that received massive positive responses from the users.

**Innovative Features:** realme narzo series continually introduces innovative features that cater to the evolving needs of our customers. Whether it's advancements in camera technology, cutting-edge display enhancements, or large storage we strive to stay ahead of the curve. With the narzo 60 Pro, we have introduced 1TB smartphone, that is exclusively for the Indian market.

Our dedication to empowering users with powerful smartphones, without any constraints on the budget, drives us to keep pushing the boundaries of innovation.

**Q** Could you please highlight a few industry-firsts or technological improvements made in the new realme narzo 60 series?

**A** At realme, we are consistently pushing our limits in terms of innovation and design and redefining our brand. We commit to delivering the best in class performance, design and other key features that sets us apart in the industry.

Below are the technological improvements made in the realme narzo 60 series:

**1TB Storage:** The realme narzo 60 series is the first to introduce 1TB smartphones that are exclusively for the Indian market. With a segment-first storage milestone and realme's Go Premium strategy, realme narzo 60 Series 5G is exclusively designed for Indian Gen-Z introducing two smartphones namely: 'realme narzo 60 Pro 5G' and 'realme narzo 60 5G'.

**Design:** Inspired by the Martian Horizon, the smartphones come in two color variants - Mars Orange and Cosmic Black, featuring premium vegan leather design. Our sleek and futuristic design embodies the spirit of exploration and possibility.

**Auto Zoom technology:** The realme narzo 60 Pro 5G is provided with the
