

HP Dragonfly G4 series launched

HP's latest offering, the HP Dragonfly G4 laptops were unveiled today. The latest line of laptops is built keeping in mind the flexibility of a hybrid work environment in today's modern business workforce. It is being promoted as a high-performance business range of laptops which come with sleek and premium design. The Dragonfly G4 series is a good choice for senior business folk who strive to do more on the go. <https://bit.ly/3YIKxY6>

Indian PC market shrunk by over 15 per cent

In India, the regular PC market sent out 3.2 million computers in the second part of this year. This was a little more than before, but compared to the same time last year, it went down by a lot (15.3% less). This information comes from a group called International Data Corporation (IDC) Worldwide Quarterly Personal Computing Device Tracker. The government also increased the PC market by 8.2%, because they needed them for court orders. <https://bit.ly/3YHTgdd>

Microsoft expected to unveil new Surface devices at Special Event

Microsoft has started rolling out invites for a "special event" to be held in New York on September 21. The Redmond giant will most likely present its new Surface devices at the event and could also reveal new features coming to Windows 11 later this year. More details regarding the exact time when you will be able to stream the Microsoft Surface event live from your home should follow later. <https://bit.ly/3YM3FEB>
