Announced at the end of each calendar year, the Digit Zero1 Awards spotlight products showcasing the best performance, rewarding brands for their research and development efforts. On the other hand, the Best Buy Awards honour products that offer the best value for money in 2023.

Which products are eligible for consideration?

Contenders for Digit Zero1 Awards and Best Buy Awards 2023 need to satisfy the following three conditions without exceptions:

- 1) Only products in the earmarked categories will be considered, as per Digit's editorial discretion;
- 2) Only products launched between November 15, 2022, and November 14, 2023, and
- 3) Only products which have been tested by Digit Test Centre are eligible for consideration in the awards.

How to nominate a product for the awards?

Brands interested in nominating their products for the Zero1 Awards or Best Buy Awards 2023 should contact editor@digit.in.

What parameters of a product are considered while evaluating its potential?

Products across all categories are put through a rigorous Digit

Test Process, focusing solely on performance. Unlike regular reviews, considerations for features, price, or design are not included in the evaluation for the Zero1 Awards.

Similarly, only the price-to-performance ratio of a product is considered to ascertain the winners of Best Buy Awards. The best performing and best value for money products win, respectively. Every category has only one Zero1 Award and Best Buy Award winner.
