Made in India Google Pixels!?

Recently, Google held the 'Google for India' event, where the tech giant announced an initiative to contribute to the Make-in-India program. Google said that it will start manufacturing the Google Pixel smartphones in India. The company will make its latest Pixel smartphones, starting from Pixel 9. With this initiative, India will be one of the countries to manufacture smartphones of all three leading brands; Samsung, Apple, and Google.

The Senior Vice President of Devices and Services at Google, Rick Osterloh has announced that the

company will start manufacturing the Pixel smartphones in India from next year. However, he didn't announce the exact timeline. Let's see how Google plans to do it.

Google is said to be in talks with the hardware manufacturers, both domestic and international. Although,

the tech giant has not announced the names of these hardware manufacturers the reports earlier have revealed that Google will be partnering with Lava International Ltd, Dixon Technologies India, and Bharat FIH, the Indian unit of Foxconn Technology Group for the Pixel manufacturing in India.

Now speaking of Google's latest smartphone, the Google Pixel 8 series was launched earlier this month and includes the Pixel 8 and Pixel 8 Pro. Now we don't know if Google will make the Pro variant in India or not. <https://bit.ly/3QbufTT>

iQOO 12 design revealed

iQOO launched the iQOO 11 series in December last year. The iQOO 11 got everyone's attention last year, debuting as the world's fastest smartphone. Well, December is closing in and there have been several rumours about the iQOO 11's successor, the iQOO 12. Now, a live shot image of the iQOO 12 has been leaked on Weibo. <https://bit.ly/3SboBDQ>
