

Tapia AI Robot Companion

This delightful robot is capable of recognizing human voices and actions to cater better to your needs. Tapia can remember birthdays and names as it learns with each conversation.

Bonjour Smart AI Alarm Clock

This alarm clock has voice-controlled AI that turns it into your personal assistant. Bonjour features a warm and welcoming female voice to inform you of possible traffic, weather for the day, and can respond to your every request.

Mycroft

This device responds to spoken commands and communicates with other devices so you can manage your home. From a simple task such as waking you up with a personalized message and the weather to locking up your house when you leave for the day, Mycroft has you covered.

Dashbot AI Robot for Cars

This device sits atop your dashboard and provides you with everything you need to create the best journey. The Dashbot AI Robot syncs with your smartphone so you can be alerted to notifications and messages, control and manage your tunes, and even get turn-by-turn directions without having to touch your device.

The Flappie AI-powered cat flap

The device has motion sensors and AI vision technology to spot when your feline friend tries to bring small animals into the house.

Vortex — Robotic Toy Re-invented

A smart and responsive robot that kids can play with and program. Using the Vortex and apps, kids can play different games, learn about robotics, and even create their own.
