How to get all your Government-issued documents with a single text on WhatsApp

Remember how annoying it gets when you urgently need your documents and do not have our laptops or the time to find them all out? What do we do in such a situation? I have a solution to your woes. Did you know you can access all your documents on WhatsApp with a single click? Let us take you through how you can get this done.

How do you access documents on WhatsApp?

This happens with the help of the government's MyGov Helpdesk on WhatsApp, which helps access our Digilocker

documents on the messaging app. Follow these steps:

- **Step 1:** Firstly, save the MyGov WhatsApp helpline number. It is: 9013151515.
- **Step 2:** Go to WhatsApp find the MyGov number and start a chat.

- **Step 3:** Next, send a "Hi," "Namaste," or "DigiLocker" to this chat.
- **Step 4:** You will also see a "Namaste" from their end and two clickable text boxes. One will be for Cowin Services and the other one for DigiLocker.
- **Step 5:** Select "DigiLocker Services".
- **Step 6:** It will then ask you if you have a DigiLocker account, click on "Yes."
- **Step 7:** In case you do not have a DigiLocker account then click on "No". It will then ask you to create and verify one with the help of your Aadhar number and the OTP sent to your mobile number.
- **Step 8:** If you have clicked on "Yes", then also you will have to enter your OTP to access your account.
- **Step 9:** Once all this is done, you can access all the documents that are saved in your DigiLocker. You can even download them.

Currently, you can access these documents on WhatsApp: PAN card, Driving License, CBSE Class X Passing Certificate, Class X mark sheet, Class XII mark sheet, Vehicle Registration Certificate, etc.

Tip #2

Google Storage

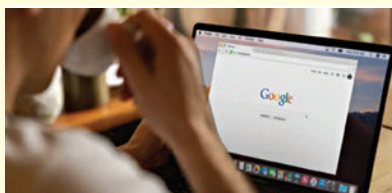

Don't spend money on Google Storage

Google only provides us with 15GB of free space. We often run out of storage. Google tells us that the best way out of this is to purchase more storage space. But is it essential? We going to tell you tricks that you can use to save money. We would recommend that you use your PC to do this to make it easier.

Deleting Big Files

If we delete the large files then we can create some storage on our Google account. For that, do this:

- **Step 1:** Go to Google Drive.
- **Step 2:** Click on the "Storage" icon on

the left side of the screen.

- **Step 3:** It automatically lists your files from largest to smallest. However, if that is not the case then you can tap on "Storage Used" to sort the files.
- **Step 4:** Now select the large files that you wish to delete and delete them.
- **Step 5:** On the left-hand side menu, you will see the Trash menu. Tap

on "Empty trash" and then "Delete forever."

Unnecessary Gmail files

Our emails sometimes hold big attachments that consume space. We should clear these. Follow these steps:

- **Step 1:** Go to your Gmail account.
- **Step 2:** Now go to the search bar and type: has attachment larger: 10MB.
- **Step 3:** Delete these.
- **Step 4:** After this, go to the Trash Menu on the left and then click on "Empty trash now."

Delete Spam Mails

Spam emails occupy a lot of space on our Gmail account. Here's how you can delete the spam emails:

- **Step 1:** Go to your Gmail account.
- **Step 2:** On the left side of the screen, you will see "Spam." Click on it.
- **Step 3:** Click on "Delete all spam messages now."
