

The BOULT Z40 Ultra TWS earbuds

PACKED TO THE BRIM WITH FEATURES, YET LIGHT ON YOUR WALLET

BOULT has emerged as India's fastest growing wearable brand in the recent competitive wearable space. Founded in 2017 by brothers Varun and Tarun Gupta, the brand has gained attention for its innovative designs in consumer electronics.

Promising a blend of functionality and comfort across its product range which spans headphones, speakers, smartwatches, and earphones, the company recently introduced the BOULT Z40 Ultra Bluetooth earbuds in India. This is the successor to BOULT's best-selling Z40 TWS which have sold over 1.2M units since their launch. They offer a plethora of exciting features like 32dB ANC, 100 hour total playtime, dual-device connectivity, Sonic Core Dynamics™, AI-powered Prism Voice PLC™ technology, fast charging and more for their value price.

BOULT Z40 Ultra TWS Earbuds Specifications:

- Active Noise Cancellation upto 32dB
- Up to 100 hours long battery life
- Dual Device Connectivity
- Special Features: Sonic Core Dynamics™ for Hardware-accelerated audio processing, Prism Voice PLC™ for AI-powered lag-free conversation, Dual Stream™ DSP for Simultaneous dual-audio processing, Zen™ Quad Mic ENC, large 10mm BoomX™ drivers, USB-C fast charging
- IPX5 Water Resistance
- Bluetooth v5.3 connectivity
- SBC, mSBC, AAC codec support
- 3 Preset EQ modes: Hi-Fi, Rock, Bass Boost
- 45ms Ultra-low latency

The BOULT Z40 Ultra prioritises getting the basics right, and then builds on a customisable audio experience that appeals to a wider audience.

The Z40 Ultra's Dual Stream DSP™ allows for simultaneous dual audio processing, maximising efficiency without compromising quality. The earphones include three EQ modes—HiFi, Rock, and Bass Boost—and you can conveniently switch between them with 4 taps on the right earbud and find your perfect listening profile. If you love a bass-heavy response, the BoomX™ Technology promises deep, rumbling bass from the 10mm drivers. As for gamers, it supports a 45ms ultra-low latency mode, for a smoother and more responsive gaming experience.

In addition to getting everything on the audio end right, the Z40 Ultra adds all the bells and whistles you don't expect at this price range. The earbuds pair seamlessly with your devices, using Bluetooth 5.3. It's got a few other tricks up its sleeves too, like support for codecs such as SBC,
