CLASH OF AI CHATBOTS IN 5 DIFFERENT SCENARIOS

Ayushi Jain | ayushi@digit.in

In the realm of artificial intelligence, Google Gemini and Microsoft Copilot stand at the forefront as powerful chatbots capable of generating content. So let's look at how they fared when we asked them to generate different bits of art --

SOCIAL MEDIA POST

Prompt: Create an image for a social media post for a new restaurant opening. The post should highlight the restaurant's name "FoodHut", its unique cuisine, beautiful interior, and any special promotions or events happening during the grand opening week. Aim to engage potential customers and encourage them to visit the restaurant.

Google Gemini

I like how the restaurant's name looks in the image. Apart from this, nothing is clear enough to read.

Microsoft Copilot

Microsoft Copilot used its creative side and created a picture showing someone posting the restaurant's image on social

media. The image shows the aesthetic ambience of the restaurant.

BOOK COVER

Prompt: Design a captivating book cover for a fantasy novel titled 'Magic Kingdom.'

The cover should convey a sense of wonder and enchantment, drawing readers into a world filled with magic and adventure. Consider incorporating elements such as a mystical castle, and fantastical creatures. Ensure the design is eye-catching.

Google Gemini

I love the font that Gemini used to write 'Magic Kingdom'. The image does have a mystical castle that I wanted. However, it didn't show the other details.

Microsoft Copilot

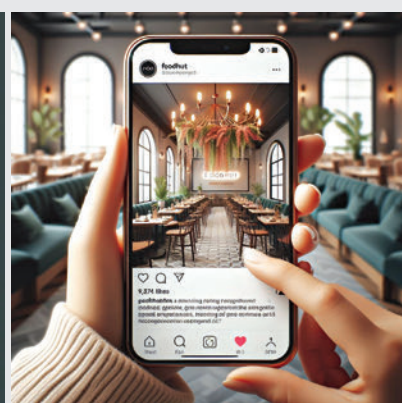

Microsoft Copilot created exactly what I asked for. The image has a mystical castle and fantastical creatures.

BIRTHDAY INVITATION

Prompt: Create a vibrant birthday invita-
