Google Gemini - Birthday Invite

Microsoft Copilot - Birthday Invite

tion card for a themed birthday party of a girl named 'Riya'. The party theme is Bollywood and it will be hosted in Mumbai. The invitation should reflect the chosen theme. Include essential details such as the date '25th March', time '7:30PM' and location of the party.

Google Gemini

Apart from 'Riya', nothing is readable in the image. I am not even impressed with the girl dancing in the centre.

Microsoft Copilot

I like how the invitation card looks. The colours are vibrant, and anyone can tell that the theme is Bollywood. However, the details of the party are not clear.

LOGO

Prompt: Create a distinctive logo for a tech company named "TechMedium". Make it impactful.

Google Gemini

If compared, Google Gemini did a very decent job. The company's name is clear and readable in the logo.

Microsoft Copilot

In the logo that Copilot created, the company's name is spelt wrong.

CAMPAIGN BANNER

Prompt: Create a campaign banner for a 'No Smoking' campaign aimed at promoting a smoke-free environment. The banner should feature something to discourage smoking and encourage healthier lifestyles. Consider using bold visuals, striking colours, and clear text to grab attention and convey the campaign's message effectively.

Google Gemini

Personally, I would not use this campaign banner that Gemini created for the 'No Smoking' campaign. The image lacks the motive and message.

Microsoft Copilot

The image that Copilot created clearly shows the consequences of smoking, encouraging people to quit smoking. **[1]**
