

Microsoft Copilot for Security available April 1

Microsoft has announced that Microsoft Copilot for Security will be generally available next month. Microsoft Copilot for

Security is an AI cybersecurity product that enables security professionals to respond to cyberthreats quickly, process signals at machine speed, and assess risk exposure in minutes. According to the new Microsoft's Copilot for Security economic study, experienced security professionals are faster and more accurate when using Copilot. <https://bit.ly/3TLzsVf>

OpenAI's Sora will be available soon for everyone

OpenAI recently unveiled its text-to-video model 'Sora'. Sora can generate videos up to a minute long while maintaining visual quality and

adherence to the user's prompt. The moment Sora was unveiled it caught everyone's attention from its capabilities. Well, you will soon be able to try out this text-to-video generator. In an interview with The Wall Street Journal, OpenAI chief technology officer Mira Murati said that Sora will "definitely" be available "this year" and that it "could be a few months." <https://bit.ly/3VtI9G3>

Microsoft Copilot Pro now available globally

Microsoft has announced that it is making Copilot Pro available in all 222 countries/regions, including India, where Copilot is available

—By **Ayushi Jain**

Microsoft launched Copilot Pro, a subscription that delivers the most advanced features and capabilities of Microsoft Copilot, earlier this year. Now, the tech giant has announced that it is making Copilot Pro available in all 222 countries/regions, including India, where Copilot is available. To make it easy to get started and experience all the features and benefits of Copilot Pro, Microsoft is also offering a one-month free trial for those who install the Copilot mobile app on iOS or Android.

For individual users, creators, and anyone else who wants to "take their Copilot experience to the next level", the Copilot Pro subscription is available in India at a price of ₹2,000/user/ month. Microsoft Copilot Pro

offers a single AI experience that runs across your devices, understanding your context on the web, on your PC and across your apps. It also offers access to Copilot in Word, Excel, PowerPoint, Outlook, and OneNote on PC, Mac and iPad for Microsoft 365 Personal and Family subscribers.

With Copilot Pro, you will also get priority access to the very latest models. Moreover, it offers enhanced AI image creation with Image Creator from Designer—ensuring it's faster with 100 boosts per day while bringing you more detailed image quality as well as landscape image format. <https://bit.ly/49mvs2l>
