

Varun Gupta: Expanding into the soundbars category signifies a strategic evolution for BOULT, driven by multiple factors. Firstly, we identified a compelling market opportunity coupled with increasing customer demand for high-quality audio solutions in the home entertainment segment. This led us to embark on a diversification strategy to broaden our product portfolio and cater to a wider range of consumer preferences. Secondly, innovation has always been at the core of BOULT's ethos. By venturing into the soundbars category, we aim to showcase our expertise in audio technology and design, pushing the boundaries of what's possible in home audio experiences. Our commitment to innovation drives us to continuously explore new product categories and deliver cutting-edge solutions to our customers. Furthermore, customer feedback and market research played a significant role in inspiring our decision to enter the soundbars market. We listened closely to our customers' needs and preferences, recognizing the growing demand for convenient yet immersive audio experiences for their homes. This deep understanding of consumer insights guided our strategic decision-making process.

In conclusion, our entry into the soundbars category represents a holistic approach, combining market opportunity, diversification strategy, innovation, and customer demand. We are excited to embark on this new journey and continue delivering exceptional audio experiences that enrich the lives of our customers.

Digit: What unique features or innovations can consumers expect from BOULT Bassbox Sound Bars?

Varun Gupta: BOULT Bassbox Soundbars are all about delivering an unforgettable audio experience that adapts to your lifestyle. Picture this: a crystal-clear, powerful sound that fills the room, whether you're hosting a movie night indoors or chilling with friends in the backyard. With options ranging from 120 to 180 watts, these soundbars pack

a punch without compromising on sleek design. But here's where it gets cool. These are a smart pair. Like, adapt-to-your-surroundings smart. So whether you're in a cozy den or a wide-open space, they fine-tune the sound to give you the best possible experience.

And talk about compatibility! They play nice with just about everything – Smart TVs, laptops, phones, gaming consoles – you name it. Additionally, setting them up is a breeze with Bluetooth, AUX, USB, Optical, and HDMI(ARC) connectivity. But it's not just about the tech specs. We've made sure these soundbars are super user-friendly too. Intuitive controls, customizable settings, and remote control functionality make for an effortless listening experience.

Digit: With the market already saturated with various sound bar options, what sets BOULT apart in this competitive landscape?

Varun Gupta: In a crowded market filled with soundbar options, BOULT stands out for its unwavering commitment to quality, affordability, and smart design. While there's no shortage of choices out there, BOULT Bassbox Soundbars offer something special – exceptional audio performance without breaking the bank. Sure, the Soundbar Market is booming, fueled by the demand for top-notch audio solutions and smart AV devices. But what sets us apart is our dedication to delivering premium sound quality at a price that won't leave your wallet crying. We believe that everyone deserves to experience incredible audio, and we're making that a reality.

But it's not just about the sound. We're all about innovation too. Our products are packed with cutting-edge features designed to take your audio experience to the next level. Whether it's seamless integration with smart TVs or intuitive controls that make setup a breeze, we've got you covered. We understand that today's consumers are all about smart home devices, and we're right there with them. Our Sound Bars seamlessly integrate with the latest

tech, ensuring that you're always at the forefront of innovation.

Digit: BOULT has quickly climbed the ranks in the audio and wearable markets. How does the company plan to leverage this success in the launch of its new Sound Bars?

Varun Gupta: With audio products driving a significant 75% of our revenue and our position as the second-largest audio brand in India, we're in the prime position to make waves in the Soundbar category. BOULT has become a trusted name in the audio industry, known for delivering quality and affordable products that exceed expectations. Just take our Z40 TWS model, for example – it's been a runaway success, with over a million units sold and an impressive average rating of 4.1 in E-commerce marketplaces. So, when it comes to launching our new Soundbars, we're not starting from scratch. We're leveraging our established brand reputation, customer trust, and market expertise to ensure a successful introduction. Our customers know they can rely on us for top-notch audio experiences, and we intend to deliver just that with our Soundbars.

From distribution to marketing, we'll capitalize on our existing infrastructure and customer relationships to maximize the reach and impact of our new products. We're committed to maintaining the high standards that BOULT is known for, and we're excited to bring that same level of excellence to our Soundbars. In essence, our past successes in the audio and wearable markets serve as a springboard for our entry into the soundbar category. With our track record of delivering quality, affordable products and our customers' trust behind us, we're confident that BOULT Bassbox Soundbars will make a splash in the market.
