HP's Snapdragon-powered MacBook competitor arrives in India

Qualcomm Snapdragon powered laptops, launched globally earlier, are beginning to officially arrive in the country. And HP India is amongst the first in-line to offer its latest Snapdragon powered Co-pilot+ laptops in the region to the consumers. HP announced the pre-booking availability of its next-generation AI PCs in India: the HP EliteBook Ultra, priced at Rs

1,69,934, and the HP OmniBook X, priced at Rs 1,39,999. Sometime ago, HP rebranded its consumer and

commercial PC portfolios to simplify its product offerings. Consumer PCs now feature the prefix 'Omni,' and commercial PCs feature the prelude 'Elite,' followed by their product categories. At the same time HP has phased out previous brands like Pavilion, Envy, and Spectre, but they remain available for a while, possibly until the stock lasts. <https://bit.ly/3XE9Yf2>

Motorola Edge 50 Ultra launches in India

It has been a banger of a year for Motorola with two successful smartphone launches. I am talking about the Motorola Edge 50 Pro and the Motorola Edge 50 Fusion. Both of these smartphones were well received in the market. And now, Motorola has introduced another smartphone in the lineup- the Motorola Edge 50 Ultra. This is a flagship offering from the series.

Apple replacing iPhone 17 Plus?

September is approaching and so is the excitement for the upcoming iPhone 16 series. But ahead of that, rumours about the next iPhone series have started doing rounds on social media. There is more than a year before the iPhone 17 series drops. But we do have a certain clue about how they might end up looking. As is the trend, Apple most likely will offer four variants with the iPhone 17 series too.

Starlink impacting Earth's ozone layer?

A study recently published in the AGU journal Geophysical Research Letters has unveiled alarming findings about the impact of Starlink satellites and other low Earth orbit satellites on Earth's ozone layer. Satellites, when they reach the end of their operational lives, often re-enter Earth's atmosphere and burn up. This process leaves behind a significant residue of aluminium oxide particles, the study mentioned. <https://bit.ly/3xZFzWE>

EAGLE PRO AI
One Connection - Infinite Possibilities

The Ultimate Whole home Wi-Fi solution is here!

Revolutionize Your Home Wi-Fi with AX1500 Mesh System's AI-Powered Self-Optimization

For details: sales@link.com

D-Link

M15 2 Pack

Get the EAGLE PRO AI Series in your home and experience the power and convenience of AI powered Wi-Fi.

Up to **1201 Mbps** Speeds | Connect **Up to 128 Devices** | Covers up-to **4000 Sq.Ft** (Pack of 2)
