

MP Samsung ISOCELL HM6 primary camera paired with a nominal 2 MP macro shooter. There's no OIS support, but you do get HDR, Auto-Night Mode and 3x in-sensor zoom capabilities.

The 108 MP primary camera struggles with dynamic range, often resulting in crushed shadows and overexposed highlights. Portrait mode photos look artificial, with smoothened skin textures and unnatural skin tones.

The detail is good enough for the price, but the overall tuning of the camera is mediocre. Noise is not just prevalent in low-light shots but even in moderate daylight conditions.

In comparison, the Realme C65 offers a significantly better camera experience. The photos from the Realme C65 are more balanced in terms of exposure and colour accuracy, making it a preferable choice for photography enthusiasts on a budget.

BATTERY LIFE

One of the standout features of the Redmi 13 5G is its battery life. The 5,030 mAh battery delivers impressive screen-on time, ranging between 9-10 hours with extensive usage.

In our 4K video loop test, the phone lasted 992 minutes, which is a little over 16 hours and 30 minutes. This is exceptional battery endurance and this performance outshines both the Realme C65 and the iQOO Z9X.

What's lacking here is the charging speeds. The 33W charger is relatively slow, taking around 75 minutes to fully charge the battery from empty. In contrast, the iQOO Z9X has a faster 44 W charger.

VERDICT

The Redmi 13 5G aims to make 5G accessible to a broader audience, but it falls short in several key areas. Its bulky design, subpar display, disappointing camera performance, and mediocre chipset make it hard to recommend. While the battery life is impressive, it isn't enough to compensate for the phone's shortcomings.

For gamers, the iQOO Z9X is a better option due to its superior performance. For those seeking a more balanced device, the Realme C65 stands out with its better camera and overall performance. The Redmi 13 5G, despite its promise of affordable 5G, fails to deliver a holistic, well-rounded experience.
