

FEEDBACK

Feedback for the magazine and website, or just your opinions expressed

Dear Sirs,

With the highest regards and respect, we aspiring future business players, request:

1. Please try and make your magazine easy to read and understand. Explain abbreviations, applications, etc.
2. We are confused about our future in the digital world. The conversation about -
 - "If we can have self-driven cars, why not self-managed business organisations" from the business novel,
 - Game Changers by Prof. Saumya Sindhvani of Singapore Management University (SMU) is often discussed.And a few other conversations between business executives from the novel.

Our confusion - **how to be future-ready for the digital world?**

Please start a section on

being future-ready. A student's perspective for:

- Different industries.
- Different functions or roles.

Thank you

-Neha and friends

Hello Neha and friends,

Thank you very much for your suggestions. We will definitely fix #1 as soon as possible, not just in the magazine but also online.

Given space constraints in the magazine, we may not be able to act on point #2 immediately—unless there's a growing demand for such a section from more readers.

But rest assured we will keep demystifying the future and asking experts on how to prepare for it whenever such opportunities arise.

-Jayesh Shinde
