## iPhone 16 Pro to be manufactured in India

Apple will soon launch its iPhone 16 across the globe. As a part of this plan, the company is also planning to expand its production operations in India. Reports suggest that the training for the same has already begun. A Bloomberg report revealed that Apple has already begun training thousands of workers at the facility, which is managed by Foxconn. <https://bit.ly/3Z5sLjQ>

## Motorola Razr 50 India launch teased

Motorola launched the Motorola Razr 50 and Razr 50 Ultra foldable smartphones in June in China. In July, the Razr 50 Ultra was released in other markets, including India. Now, Motorola has started teasing the India launch of the standard Razr 50 handset. On X (formerly Twitter), Motorola shared the teaser video of the Razr 50. <https://bit.ly/3Xj2vBx>

## Google Pixel 9 series won't be available with Android 15

While many were eager to see the latest features and improvements in Google's phones, there was one unexpected detail that caught everyone by surprise: the Google Pixel 9 series will not be available with Android 15. Yes, you read that right. The Pixel 9 series will come with Android 14 out of the box. <https://bit.ly/3T4iz7E>
