Apple fans and tech enthusiasts have been eagerly waiting to see what the company had in store for its iPhone 16 series, and now the wait is finally over. After months of leaks and rumours, Apple has officially unveiled the iPhone 16 lineup. Let's take a closer look at the iPhone 16 and

iPhone 16 Plus, exploring their prices, specifications, and everything else you need to know. Whether you're considering an upgrade or just curious about what Apple has released this year, keep reading to get all the details about these exciting new smartphones. <https://bit.ly/3BfgG1T>

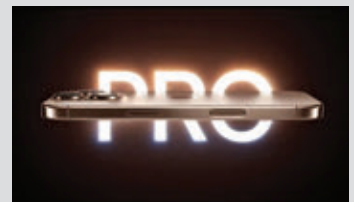

Apple Watch Series 10 with sleep apnea launched, Watch Ultra 2 gets an upgrade

The Apple Watch Series 10 brings a fresh new design and several key upgrades that are sure to catch attention. It features more rounded corners and significantly thinner bezels, creating a sleeker look. The new wide-angle OLED display is Apple's first of its kind, offering 40 percent more brightness than the Series 9, especially when viewed from an angle. <https://bit.ly/3BdCTgK>

AirPods 4, AirPods Pro 2 and AirPods Max launched

Apple has completely revamped its AirPods line-up, launching as many as four new models during the Glowtime event. The base AirPods with open-fit style have two variants - one with ANC and one without them. This makes the AirPods 4 the first open-fit AirPods by Apple to get ANC. Apple's most expensive AirPods Max didn't get any major upgrade apart from new colours and a type-C port. <https://bit.ly/3BoWuuk>

iPhone 16 Pro and 16 Pro Max with A18 Pro

After a lot of waiting, rumours, and leaks, the iPhone 16 is finally out. Apple has launched its new iPhones during its Glowtime event 2024 at Apple Park, Cupertino. This time, the tech giant has primarily focused on AI aka Apple Intelligence on new iPhones. Like last year, there are four new iPhones this time as well; the iPhone 16, iPhone 16 Plus, iPhone 16 Pro, and iPhone 16 Pro Max. The iPhone 16 Pro models are now bigger than their predecessors. <https://bit.ly/3XC9PqH>
