Sony WF-1000XM5

Sony WF-1000XM5 is Sony's flagship TWS in-ear earphones. Coming in at a price of ₹22,990 at the time of writing, they offer a great selection of features, including Sony's personalised audio calibration, baked into the Sony Headphones Connect app. Couple that with excel-

lent build quality and fit, and you already have a winner. The sound quality on these buds is crisp, thanks to a balanced sound signature. In terms of ANC, Sony outclassed itself and delivered a pair of TWS in-ear earphones that would cancel out almost all the noise coming in, thanks to their improved fit and reduced overall size of the buds.

Sennheiser Momentum 4 TWS

Sennheiser Momentum TWS 4 in-ear earphones

are one of the best alternatives to the Bose Quiet Comfort Ultra TWS and the Sony WF-1000XM5. These earbuds offer performance that is pretty close to that of the Sony and the Bose, but are more economical than any of the two, coming in at a price of ₹18,990 at the time of writing. The sound signature of these earbuds is fairly well rounded, and they bring excellent ANC performance to back it up. This is thanks to their excellent fit. Overall, combined with the features, these earbuds make for a definite consideration for anyone looking for a pair of premium TWS in-ear earphones. They have a very modern aesthetic, a slightly bulky but pocketable case, and lightweight and well-fitting earbuds that can be customised to your liking using the companion app.

Bose QuietComfort Ultra Earbuds

Bose built one of the best TWS in-ear earphones in the market, with

the Bose Quiet Comfort Ultra earbuds. Sitting at the top of Bose's lineup of TWS in-ear earphones, these new entrants opened the door with a bang. The signature Bose design allows most users to get a secure and comfortable fit with these earbuds. They are heavy on your pocket, though, beating Sony to the highest-priced TWS on this list. At the time of writing, these earbuds were retailing for a price of ₹25,900 which is quite a lot of money for a pair of TWS earbuds.

Apple AirPods Pro (2nd Gen, USB-C)

Apple AirPods Pro (Gen 2), updated with USB-C are the best TWS in-ear

earphones that Apple has to offer right now. Sporting an iconic case, it is hard to miss someone who is rocking these in-ear earphones. They work phenomenally with Apple devices, providing what can be called a truly state-of-the-art experience to their owners. These earbuds lack some of the fancy bells and whistles that their contenders might have, but they make up for all of that with their performance. Their sound signature is one of the best of the lot.

Samsung Galaxy Buds2 Pro

Samsung Galaxy Buds2 Pro are the best pair of TWS earbuds under ₹10,000. They offer a great and detailed sound signature, thanks to their dual-driver setup and partnership with AKG, which definitely bore them with very sweet fruits. They come in a compact case that is very pocketable and sturdy. These earbuds also offer a great selection of features and ANC that is very hard to match for manufacturers selling products in this price range. These earbuds leave no box unchecked and ensure that Samsung's presence is felt with dominance in the TWS market. Their battery life is the only thing that might be a letdown.
