## OnePlus Nord Buds 2

The OnePlus Nord Buds 2 offer a well-rounded feature set for budget-conscious listeners. At under Rs 3,000, they boast 12.4mm dynamic drivers with Dolby Atmos support for clear and immersive audio. While some reviews mention the bass can be a bit strong, you can likely adjust this with the equalizer. Active noise cancellation (ANC) helps block out distractions, while the transparency mode lets you stay aware of your surroundings. With a claimed 7 hours of playback on a single charge and an additional 30 hours with the case, you can enjoy extended listening sessions.

## realme Buds T300

Packing a surprising punch for the price, the realme Buds T300 cater to budget-conscious users who crave features. Active noise cancellation (ANC) drowns out distractions, while a 12.4mm dynamic driver promises rich sound. They even boast 360° Spatial Audio with Dolby Atmos for an immersive listening experience. Battery life is impressive too, with up to 7 hours per charge, reaching 40 hours with the case. This makes them ideal for marathoning music or podcasts. Overall, the realme Buds T300 are a great option for value seekers who want the bells and whistles of ANC and spatial audio without breaking the bank.

## boAt Nirvana Space

The boAt Nirvana Space earbuds offer a mixed bag. While the claimed 100-hour battery life is impressive and the ANC works decently for its price point, the sound quality is a bit hit-or-miss. The bass can be overpowering, drowning out other frequencies. The 360-degree spatial audio is an interesting feature, but its effectiveness might vary depending on the content. Comfort and fit are decent, there are some issues with the earbuds staying in place during intense workouts. Overall, the Nirvana Space is a budget-friendly option with a few standout features, but it's not perfect.

## Redmi Buds 5

The Redmi Buds 5 offer a compelling option for budget-conscious users seeking active noise cancellation (ANC). They feature hybrid ANC that dampens ambient sounds by up to 46dB, according to the company. However, leakage can occur at higher volumes. The 12.4mm dynamic drivers with titanium plating promise clear and powerful audio, with customizable EQ to tailor the sound. Battery life is decent at 6 hours on a charge, with an additional 18 hours from the case. Overall, the Redmi Buds 5 offer a balance of features and affordability.

## OnePlus Nord Buds 2r

The OnePlus Nord Buds 2r are a budget-friendly option for casual listeners who prioritise a comfortable fit and long battery life. They pack 12.4mm drivers that deliver clear audio, though the boomy bass that might overpower other frequencies. With 8 hours of playback on a single charge and an additional 38 hours from the case, you can enjoy extended listening sessions. An IPX5 water resistance rating makes them suitable for workouts or light rain. However, the Nord Buds 2r lack features like active noise cancellation (ANC). Overall, they're a decent choice for those on a tight budget.
