Amazfit Band 7

The Amazfit Band 7 is crafted with durable polycarbonate material and a comfortable silicone strap. It features a 1.47-inch AMOLED display, offering a bright and clear interface. Equipped with SpO2 and heart rate monitoring, it also tracks sleep patterns and stress levels. Running on the Zepp OS, it ensures a smooth user experience with compatibility across Android and iOS. Connectivity options include Bluetooth 5.2, ensuring seamless pairing with your smartphone. Key sensors include a PPG heart rate sensor, SpO2 monitor, and accelerometer, making it a comprehensive health tracking device.

Samsung Galaxy Fit3

The Samsung Galaxy Fit3 boasts a sleek aluminum body with a soft silicone band,

making it lightweight and comfortable. It features a 1.2-inch AMOLED display, offering crisp visuals. The Fit3 supports SpO2 and heart rate monitoring, sleep tracking, and stress management. It operates on a proprietary OS, designed for seamless integration with Android and iOS devices. Connectivity includes Bluetooth 5.1 for smooth pairing. The watch is equipped with sensors like GPS, an accelerometer, and a gyroscope, for accurate tracking.

cmf Watch Pro 2

The cmf Watch Pro 2 features a robust zinc alloy frame with a 1.91-inch HD display. It includes advanced health

tracking features such as SpO2 monitoring, heart rate tracking, and sleep analysis. The smartwatch operates on a custom OS, optimized for smooth performance. Connectivity options include Bluetooth 5.0, WiFi, and 4G VoLTE, enabling quick access to calls and messages. Equipped with GPS, a heart rate monitor, and a pedometer, it ensures comprehensive activity tracking. The watch also supports Bluetooth calling, making it a versatile companion.

Huami Amazfit AMOLED

The Huami Amazfit AMOLED is designed with an aluminum alloy case and

a 1.39-inch AMOLED display. It includes a range of health tracking features such as SpO2 monitoring, heart rate tracking, and sleep analysis. Powered by the proprietary Amazfit OS, it provides a smooth and user-friendly experience. The watch offers Bluetooth 5.0 connectivity, ensuring quick pairing with smartphones. Key sensors include GPS, a bio-tracking sensor, and an accelerometer, making it ideal for fitness enthusiasts.

Hammer Conquer

The Hammer Conquer stands out with its large 2.02-inch AMOLED display. The watch is built to last with an IP67 rating, ensuring resistance against dust and water. It provides essential health tracking features like heart rate monitoring, step counting, and calorie tracking. The device supports Bluetooth connectivity for seamless pairing with smartphones. It operates on a proprietary OS, optimized for smooth performance. Equipped with sensors like a heart rate monitor and an accelerometer, the Hammer Conquer is designed for users looking for an affordable, feature-rich smartwatch.
