

KODAK's QLED range brings visuals to life!

BRAND STORY

Kodak's latest QLED TV lineup redefines home entertainment with a range of advanced features designed for immersive viewing. These models, from 43-inch to 75-inch sizes, are equipped with 4K QLED displays that can reproduce every detail with precision. These TVs are more than just visual powerhouses—they deliver an impressive audio experience as well. Select models feature Dolby Vision and Dolby Atmos, and Dolby Digital Plus support ensures clear, balanced audio across the lineup. Whether for intimate spaces or large living rooms, this range blends cutting-edge display technology with superior sound to transform everyday viewing into a theatre-like experience. Kodak's QLED lineup is crafted for those who value both design and performance in their home entertainment setup.

KODAK 43MT5055

PRICE:
₹20,999

The Kodak 43MT5055 with its QLED 4K display, delivers over a billion vibrant colours and exceptional clarity. With HDR10+ support, this TV enhances dynamic range, giving deeper blacks and brighter highlights for more lifelike visuals. It has a modern bezel-less and Airlsim design, ensuring it blends seamlessly into any space. For audio, it doesn't fall short, boasting Dolby Vision and Dolby Atmos, alongside Dolby Digital Plus support.

KODAK 50MT5011

PRICE:
₹26,499

Kodak's 50MT5011 QLED TV captures attention with over a billion colours, bringing visuals to life and making each frame pop with rich detail and clarity. HDR10+ technology ensures this TV excels in high dynamic range, delivering vibrant contrasts. It sports a sleek, bezel-less Airlsim frame in classic black with a sturdy alloy stand. While its sound capabilities include Dolby Digital Plus, it doesn't feature Dolby Atmos or Dolby Vision. This omission is balanced by its impressive visual performance.
