

## Bosch Unlimited 7

**T**he Bosch Unlimited 7 cordless vacuum offers an all-in-one cleaning solution designed to make daily upkeep both efficient and easy. Powered by Bosch's advanced motor technology, this vacuum delivers robust suction and impressive runtime, thanks to its exchangeable battery system. With up to 60 minutes of cleaning time on a full charge, the 7 is well-suited for tackling dust, dirt, and debris across various floor types, from hardwood to carpets.

One of the highlights of the Bosch Unlimited 7 is its flexibility. The vacuum is equipped with a motorised brush that adapts to different surfaces, making it effective for whole-home cleaning. Its lightweight design and

compact build enable easy handling and storage, and with cordless functionality, it provides greater reach and freedom to clean hard-to-reach spaces without the limitations of a power cord. The 7 also includes various attachments, such as a

crevice nozzle and upholstery brush, adding to its versatility for cleaning not just floors but also furniture, drapes, and even your car interiors.

The 7 uses Bosch's Power for ALL Alliance battery system, which is compatible across Bosch's 18V Home & Garden tools, so you can swap batteries between devices for uninterrupted cleaning sessions. Easy to maintain, it features a washable filter and dust container, reducing recurring costs and upkeep efforts. With its combination of powerful performance, convenient design, and adaptability, the Bosch Unlimited 7 suits homes looking for a hassle-free, efficient cleaning tool that can seamlessly transition between various surfaces and settings, making everyday cleaning a straightforward task.

## Yale ByYou V Pro

**T**he Yale ByYou smart lock series is designed to seamlessly integrate into daily routines, adding convenience to home security without overcomplicating it. With options in RIM Lock and Deadbolt types, the series caters to varied preferences, whether you prefer a fingerprint scan for instant access or a PIN code for family members who aren't tech-savvy. Setting up is straightforward—Bluetooth integration lets you sync the lock with the Yale Home app, making it easy to customise access preferences right from your phone. For those who need more flexibility, the optional Yale Connect Wi-Fi Bridge takes things up a notch, allowing you to monitor access remotely. Imagine being able to let in a family member or a guest while you're at work or out for the evening, all with a quick tap on the app. You'll receive activity updates in real-time, so you're always in the know about who's entering or leaving.

The locks include automatic locking, so you don't have to worry about whether the door is secure once closed, and notifications for low battery or break-in alerts add a layer of reassurance. The customisable front panels, available in finishes like Black Gold, integrate easily into various home aesthetics. The Yale ByYou series doesn't just provide security; it adapts to how you live, offering accessible, reliable control over your home's entry points.
