

bricks. The game requires kids to build their own vessel and then use it to transport cargo for bonus bricks.

LEGO DUPLO Train

Price: Free

OS: iOS, Android

Another fun game from LEGO, it takes your child into a world of train driver travelling from station to station. Kids need to control their wagons as they load, construct bridges, follow stop signs, refuel and even make new tracks to explore the world. Endless hours of fun for younger kids.

Monster Math

Price: ₹ 190

OS: iOS

Monster Math is an amazing educational tool that truly impresses. The game uses adventurous storytelling with its lead character Maxx to explore worlds where math problems need solving. The app is worth its cost many times over due to its engaging and clever design, art and ability to keep kids interested. And the story is a bonus above all making it truly a fun experience.

Crayola ColorStudio HD

Price: Free

OS: iOS

ColorStudio HD is a no-frills paint app that is a must on every tablet. For the simple reason that it will ensure that your kids don't draw and paint on household surfaces. But besides that the app does a great job at making it easy for kids to draw, colour and create drawing from their imagination.

Little Things Forever

Price: ₹ 190

OS: iOS and Android

Little Things Forever is a remarkably popular app for kids and for good reason. The game design and visuals
