Cozi Family Organizer (Android, iOS, Windows Phone)

Cozi is a one-app solution for your family organizational needs. This task management app allows you to coordinate tasks with family members by syncing a fixed family schedule across each family member's device. The

app allows multiple users to create, view, and edit shopping and to-do lists, mark important family event dates, and make notes in journal entries with support to attach photos.

The app also includes a neat family journal in which members can jot down special moments and attach photos to make them more memorable. The Android version also includes support for home screen widgets for quick access to the family calendar, grocery and to-do lists, and journal entries.
