

CHAPTERS

INTERNET OF THINGS

MAY 2015

06

PAGE

What is the Internet of Things (IoT)

Inter-connectedness of smart devices is inevitable – and it's good. But will we like it? How will it all pan out?

13

PAGE

The technology powering IoT

The Internet of Things is a redesign of the way technology communicates. We look at the existing and developing systems that power it.

27

PAGE

The Internet of Home Life

The Internet of Things begins at home. From managing the food to keeping things clean - the potential use of the IoT in our everyday life is amazing.

37

PAGE

The Internet of Office Work

The Internet of Things is making its way into our offices. Smart offices or intelligent office suites will soon be the next big thing.
